

## **Sample Script from the Massachusetts Pollinator Network**

The ask to our senators is simple: please co-sponsor Senator Merkley's bill S.2199: A bill to amend the Agricultural Marketing Act of 1946 to establish a pollinator-friendly plant labeling program. If you choose to elaborate on why this is important, even better!

The more constituents they hear from, the more they will understand how important this is. So, please pass this email along to your networks -- your gardening friends, fellow pollinator advocates, and organizations you are a part of -- to help spread the word and put the pressure on our Senators to co-sponsor this important bill."

*Calls and emails are especially effective.* (Find your senators' contact information [here](#).) If you are lucky enough to be a constituent of any of the [co-sponsors](#), you can always thank them, as well.
